

Modernization Certificate: Base

Certified At: 2026-01-30T10:50:23.306796

1. Executive Summary & Compliance Score

Architect Score: **100/100**

The legacy solution has been successfully transformed into a modern Data Lakehouse architecture. 23 files processed resulting in 1349 lines of PySpark code.

Metric	Value
Bronze Layer Files	7
Silver Layer Files	7
Gold Layer Files	7
Total Refined Files	23

2. Medallion Architecture Lineage

Traceability from source assets to the Lakehouse layers.

Source Asset	Bronze (Raw)	Silver (Clean)	Gold (Business)
DimCategory.py	DimCategory	DimCategory	DimCategory
DimCustomers.py	DimCustomers	DimCustomers	DimCustomers
DimEmployee.py	DimEmployee	DimEmployee	DimEmployee
DimProduct.py	DimProduct	DimProduct	DimProduct
DimShipper.py	DimShipper	DimShipper	DimShipper
DimSupplier.py	DimSupplier	DimSupplier	DimSupplier
FactSales.py	FactSales	FactSales	FactSales

3. Compliance Audit Trail

[INFO] [Refactoring] Applying Spark Optimizations and Security Controls...

[INFO] [Refactoring] Scanning generated files for optimization candidates...

[INFO] [Refactoring] Optimizing BRONZE layer (7 files)...

[PASSED] [Refactoring] > DimCategory_bronze.py: Added Z-Order hint

[PASSED] [Refactoring] > DimCategory_bronze.py: Validated Secret Scope usage

[PASSED] [Refactoring] > DimCustomers_bronze.py: Added Z-Order hint

[PASSED] [Refactoring] > DimCustomers_bronze.py: Validated Secret Scope usage

[PASSED] [Refactoring] > DimEmployee_bronze.py: Added Z-Order hint

[PASSED] [Refactoring] > DimEmployee_bronze.py: Validated Secret Scope usage
[PASSED] [Refactoring] > DimProduct_bronze.py: Added Z-Order hint

4. AI Operating Manual

Technical context generated by the Shift-T Governance Agent.
